EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Title: Pixel electrode with a second aperture formed directly above a first aperture of the upper electrode of the storage capacitor.

Authorization for this examiner's claim amendment below was given in a telephone interview with Belinda Lee on 1/8/2007.

Claim 1 and Claim 14 is amended to replace the word "when" to a "," (comma).

AMENDED Claim 1 (Page 3, Lines 1-3) "...wherein each of pixel electrodes further comprises at least a second aperture, the first aperture is located underneath the pixel electrode, and the second aperture is formed directly above the first aperture."

AMENDED Claim 14 (Page 5, lines 3-6) "...wherein each of pixel electrodes further comprises at least a second aperture, the first aperture is located underneath the pixel electrode, and the second aperture is formed directly above the first aperture."

Claims 1-7,9-14 are allowed.

The following is an examiner's statement of reasons for allowance:

Art Unit: 2871

Nishikawa discloses (Figure 5A,5B) wherein each of the pixel electrodes (55) further comprises at least a second aperture (shown above) when the first aperture (shown above) is located underneath the pixel electrode (55) and the second aperture is formed above the first aperture.

Nishikawa does not disclose the second aperture formed directly above the first aperture.

It would have not been obvious to combine another reference to disclose the second aperture of the pixel electrode being directly above the first aperture of the upper electrode of the storage capacitor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lucy P. Chien whose telephone number is 571-272-8579. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on (571)272-1787. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
